

## A VICTORY FOR GODDARD

Defeated the Strong Rockland Military Academy.

### SCORING 3 TOUCHDOWNS.

Game Which Was Played at West Lebanon, N. H., Yesterday Had to Be Shortened to Allow Visitors to Catch Train.

Goddard seminary defeated Rockland Military academy at foot ball yesterday afternoon at West Lebanon, N. H., by the decisive score of 16 to 0. Rockland has a strong team and that Goddard should beat them so badly shows that the local boys have been putting in some hard work.

The game was late in being started, so it was arranged that it should be called in time for the Goddard team to catch their train. Rockland kicked off to Goddard. Cannell took the ball and advanced it about 25 yards. Then Goddard began a hammering campaign against Rockland's line, which was so effective that the seminary boys were not once held for downs, and only once or twice did they fail to make first down each rush. When within 15 yards of Rockland's goal, Stanley Berry was put through the line on a tackle back formation and crossed the goal line for the first touch down.

Goddard kicked to Rockland, the cadets advancing the ball for about 10 yards, and then as one of the half backs was trying to make a gain around Booth's end Booth downed him, the ball flying out of the Rockland man's hands. Cannell fell on it. In another series of line bucks Knapp gained a touch down.

Goddard then kicked to Rockland again and forced them to punt. The seminary boys got the ball and rushed it back up the field for the third touch down, which was to Berry's credit. Goddard kicked to Rockland once more, but the half was up after one rush. The score stood 16 to 0 in favor of the Vermonters.

### CHALLENGE FROM D. F. DAVIS.

D. F. Davis, "The Druggist," is seeking the worst case of dyspepsia or constipation in Barre or vicinity to test Dr. Howard's new specific for the cure of those diseases.

So confident is he that this remarkable medicine will effect a lasting cure in a short time that he offers to refund the money should it not be successful. In order to secure the quickest possible introduction, D. F. Davis will sell a regular fifty-cent package of this medicine at half price, 25 cents.

This specific of Dr. Howard's will cure sick headache, dizzy feelings, constipation, dyspepsia and all forms of malaria and liver trouble. It does not simply give relief for a time; it makes permanent and complete cures.

It will regulate the bowels, tone up the whole intestinal tract, give you an appetite, make food taste good and digest well and increase vigor. Joy and happiness will take the place of that "don't care whether I live or die" feeling.

Take advantage of D. F. Davis' challenge and secure a bottle of Dr. Howard's specific at half price, with his personal guarantee to refund your money if it does not help you.

### TO REAR TOWNS IN DESERT.

Government Sponsor for Idaho Irrigating Canal Developments.

Washington, Oct. 24.—Two towns, for which the United States government will act as sponsor, will be created next month in southern Idaho. Rebyburn, the first, is to be erected on Nov. 14, and Rupert, the second, is to be created one week later seven miles from Rebyburn. Auction sales will be conducted under government auspices on the days the towns are erected.

While the country is now a desert it is expected that the great irrigating canals which the government is constructing at a cost in excess of \$3,000,000, will make it very productive.

### WILLIAMSTOWN.

Solon Briggs of Pasadena, Calif., is visiting friends in Williamstown. Mr. Briggs, who is a native of this town, has not been here before in fifteen years, and he notes many changes, especially in Barre, where as a boy he attended school at the Barre academy.

## AT AUCLAIR HOSPITAL

SISTERS OF CHARITY SAVE A LITTLE BOY'S LIFE WITH FATHER JOHN'S MEDICINE.

Among the children under our care was a poor orphan boy, eight years old, poorly nourished and suffering difficulty in breathing, cough, diarrhoea, indigestion and vomiting. The Sisters who had him in charge consulted three different doctors and they all pronounced the case hopeless, saying that the good care he enjoyed was all the help he could have, and that it was useless to submit him to any new treatment.

When a Sister received from a friend a present of a bottle of Father John's Medicine, she immediately started to give of the medicine to the little sick boy, with the wonderful result that after one month and a half with this treatment, he was improved so much in

strength and size that one could hardly believe it was the same boy that was seen a short time before in such a bad condition. He is now going to school and partaking in all the pastimes of his schoolmates—something that he never before was able to do.

It is therefore with the greatest pleasure and satisfaction the Sister recommends Father John's Medicine.

(Signed) THE SISTERS OF PROVIDENCE, Hospice Auclair, Montreal, Canada.

Father John's Medicine prevents Pneumonia and Lung Troubles, and cures all Throat and Lung Troubles. No alcohol or poisonous drugs.

## Peptiron Pills Hood's Pills

Purifies the blood, feeds the nerves and brain, tones the stomach, aids digestion, and gives sweet, natural, natural sleep. 50c. or 10c. Druggists or by mail of us.

### BIG WHEAT CROP.

More in Sight Than Ever Known in the Great Northwest.

Chicago, Ill., Oct. 24.—People who have been through the Northwest of late, bring back reports of country elevators being crowded, wheat being piled on the ground in North Dakota, and stored in sheds and every available place.

Farmers have it in their houses, and those who have been fortunate enough to erect new abodes have been forced to use them as storehouses instead of residences. Cars are scarce, but even when loaded with grain it is not easy to get them moved. Tonnage is unprecedented, and there is no prospect of a let-up. There is more in sight than has ever been known, and enough to keep the railroads busy up to the limit of their capacity for the next six months.

Miscellaneous freight is moving in immense volume, being 10 to 15 per cent larger than in any previous year. The aggregate receipts of all grains last week was the largest at this season since 1899.

With a steady increase in offerings of tonnage for east and west bound shipment, eastern railroads are facing the greatest operating problem they have ever been confronted with at this season. There is a constant pressure of tonnage at all lake ports and at most of them it is so great that the railroads are unable to take care of it.

High class freight is getting preference greatly to the discomfort of grain shippers. Some of the latter have grain held at Buffalo for nearly two months, which has not been moved. When the new corn begins to move there will be more trouble for eastern railroads, as there are millions of bushels to go to the seaboard already contracted for.

### NOW \$1,500,000.

Enterprise Bank Shortage Is Larger Than Anticipated.

New York, Oct. 24.—A special to the Tribune from Pittsburgh says:

Fred Gwinner, president of the defunct Enterprise National Bank, when asked Sunday what the shortage of the Enterprise would amount to, said:

"It will be very large, much larger, in fact, than we first supposed. From what I know now it will reach \$1,500,000. None of the directors or officers, not even myself, had any idea that it would reach such an enormous sum as that."

"The directors have determined, however, that no matter how great the shortage, it will be paid, and the bank reopened for business. We hope before a month elapses it will be in operation again, and will eventually hold up its head and occupy the proud position that it formerly commanded."

### Governor Folk Burned Out.

Jefferson City, Mo., Oct. 24.—The governor's mansion at Jefferson City was damaged to the extent of \$10,000 by fire early yesterday. Governor Folk, his wife and guests had to seek quarters at a nearby hotel.

### Surveying on the East Side of Old Mansfield.

T. B. Barney, the veteran surveyor, who is now 72 years of age, started from Burlington last Monday morning for Mount Mansfield, where he and Ira W. Thorp, another surveyor, ran and remarked the old line of a tier of lots reaching from Snuggler's Notch to a point about 100 rods south of the south end of the mountain, some 900 rods in all, on the Stowe or east side of the mountains. They camped out Tuesday night at the base of the south peak or forehead of old Mansfield, and reached the mountain road which runs from Stowe to the house at the foot of the nose, Wednesday noon, then taking the trail from the mountain house reached Underhill in season for the night trains for Burlington. They found plenty of deer, deer, and hedgehog tracks, but saw only one deer, one rabbit and a few squirrels and partridges. The trip was a most successful one, and although it was a long tramp, was very pleasant. Tuesday night was a most delightful fall night for camping out in the mountain forests. The bright fire, good camp and bed of soft boughs were greatly enjoyed.

Saxtons River is being terrified by a "Peeping Tom", who enters the rooms also, according to a number of reports. A Vermont Academy girl awoke one night recently and found a man beside her bed, it is said, who told her to keep still or he would shoot her. She screamed and he jumped out of the window. Other people in the village have been troubled by him, but cannot find out his identity.

The early records of the Vermont Medical society, which were presented to that organization at its recent meeting in Burlington, were, as stated, the property of the late Dr. C. C. Rublee, of Morrisville, and were presented to the society in accordance with a request made by him before he died.

## MURPHY AND M'CARREN

Both Must Testify Before the Insurance Investigators.

### QUEST IS FAR-REACHING

Probers May Call Odell Also—Mutual Life Said to Have Once Tried to Sell the Concern's Docks to the Municipality.

New York, Oct. 24.—Charles F. Murphy and Patrick McCarren are to be called as witnesses before the insurance investigating committee, to tell what they know about the affairs of the Brooklyn Wharf and Warehouse Company, recently reorganized and now known as the New York Dock Company.

The news that the leader of Tammany Hall and Brooklyn's Democratic boss were to be interrogated by Chief Inquisitor Hughes became known yesterday from a source entirely apart from any of the counsel for the committee. Just how soon the two politicians will be called has not been ascertained, but the intention is to have them both on the stand as soon as possible.

Mr. Hughes is determined to make a thorough investigation of the connection between the Mutual Life's officers and the dock company. Today he will recall Assistant Treasurer Timpson of the Mutual, who took a leading part in the reorganization of the Wharf and Warehouse Company. If his questioning does not elicit complete information regarding the subject, Mr. Hughes will work along other lines which have been suggested to him by several interested parties.

The committee has also decided that ex-Gov. Odell shall testify before it.

Paul Morton, president of the Equitable has decided, so a reporter learned yesterday to base a further reorganization of the Equitable on the legislative committee's investigation of the society. This explains why the Equitable's new management has permitted certain criticized officers and directors of the old regime to retain their positions.

At least five Equitable officers or directors, it was learned, have been told to hold themselves in readiness to testify this week.

The legislative committee is considering the question as to whether, in view of last week's testimony regarding the Mutual Life's Albany house, it shall issue subpoenas for all members of the insurance committee of both the Senate and the Assembly for the legislative session of 1905. No decision has yet been reached, however.

### \$5,000 MAY QUIT.

Determined Efforts to Break Gotham Teamsters' Strike.

New York, Oct. 24.—Preparations to break a threatened strike involving 55,000 New York teamsters were made yesterday by the establishment of a strike-breaker headquarters by truck owners who fear that their drivers may go on strike. The truck owners held a secret meeting yesterday, prior to which it was freely stated that the strike, which up to now has affected only one employer, will be extended to 250 employers by today.

Immediately after the meeting strikers asserted that strike-breaking headquarters had been opened under the leadership of George Ward, a detective and a former assistant of Farley, the boss strike-breaker. A considerable number of strike-breakers gathered at this office yesterday.

H. C. Hunter, secretary of the Team Owners' Association, said that the situation was critical and that the organization faces a strike that might equal or even exceed the recent strike of the teamsters in Chicago. He said, however, that the boss truckmen were prepared.

Valentine Hoffman, president of local 708 of the Teamsters' Union, said that the teamsters were financially well equipped for a strike, and that any compromise that might emanate from yesterday's meeting of the Team Owners' Association would not be accepted.

To Cure a Cold in One Day Take LAXATIVE BROMO Quinine Tablets. Druggists refund money if it fails to cure. E. W. GROVE'S signature is on each box, 25c.

### GOLD BREAKS RECORD.

Mr. Treat Says \$748,000,000 and Over in Treasury.

Washington, D. C., Oct. 24.—In his annual report, United States Treasurer Treat says that the continued increase in the circulation is a matter for pride, and has attracted the attention of the financiers of the world. During the year the general stock of money grew \$79,605,729, making a per capita circulation of \$31.05. There was a continued increase in the proportion of gold and national bank notes in circulation, and no other government has ever held so much gold as the \$748,425,925 in the United States treasury in the middle of October.

Expenditures during the past two years exceeded receipts by more than \$64,000,000, accounted for by the purchase of the Panama canal property.

### RECORD SOLAR SPOTS.

New Ones Located Last Friday May Establish Precedent.

San Jose, Cal., Oct. The Rev. Fr. Joseph Rickard, S. J., of the Santa Clara college astronomer, announced Sunday night the result of his observations of a group of sun spots, the discovery of which was noted several weeks ago. Prof. Rickard calculates the length of the entire group at 144,145 miles, with a width of 115,532 miles. The astronomer announces increased solar activity, with a probability that two new spots, first noted last Friday, will exceed in size any hitherto observed.

## PUBLIC OFFER

To All Persons in Barre Who Wish to Accept.

Are you thin? Do you require more flesh to be really well and strong?

To every such person in Barre we make the following offer: Commence at once a course of treatment with Vinol, our cod liver oil preparation, without oil, and if after you have taken what we consider enough to restore your normal weight, and it has not succeeded, we will pay for all the Vinol you have taken.

A prominent New York physician recently said: "I am convinced that the best way to gain good, solid, firm flesh is to take Vinol, for in it you get all the curative, flesh-making and strengthening properties contained in that grand old remedy, cod liver oil, without the nauseating oil itself. It is delicious, and the weakest stomach can retain it. Thin people are usually weak and ailing, and Vinol is what they need."

Vinol acts first upon the stomach, creates an appetite for good, wholesome food, strengthens and tones up the digestive organs. Rich, red blood is sent coursing through every vein, firm flesh is created wherever it is needed, and emaciated figures, hollow cheeks and sunken eyes are soon a thing of the past.

Every thin person in Barre should try Vinol on our guarantee. Rickert & Wells, Druggists.

### The "Wizard of Oz".

The "Wizard of Oz", which is to be seen at the Barre opera house Friday evening, is rather unique in its drawing powers and is a constant surprise to its owners as well as to others in this respect. All the features which have made it so popular in the past are retained.

this season, but many new ones have been added. The Scarecrow and the Tin Woodman have a specialty that is almost entirely new this season, and the whole production has been brightened up and beautified, the costumes being more elaborate than ever.

### "Buster Brown."

"Buster Brown" has been dramatized and put upon the stage by Mr. Melville B. Raymond. Buster is an appealing little fellow and with his dog Tige, is the moving spirit in a vast number of humorous complications and side-splitting adventures. These are set in a handsome framework and adorned with a large chorus, a ballet and a group of American Beauties, whom Redfern and Worth, the noted Parisian modistes have made to look like Queens of society. "Buster Brown" will be presented at Hale's Theatre on Nov. 2nd direct from its successful run of one hundred nights at the Majestic Theatre, New York city and nearly two hundred nights in Chicago.

### BIG STEAMSHIP DISABLED.

British Vessel Signalled but Unknown Craft Didn't Reply.

London, Oct. 24.—The British steamship, Potomac, Capt. McKay, which arrived at Avonmouth Oct. 21 from Philadelphia Oct. 7, reports having passed a large steamship Oct. 17 in latitude 51 north and longitude 26 west, showing two red lights, meaning that she was not under control. Apparently she was steaming slowly eastward.

The Potomac did not receive any reply to her signals, and the unknown steamship did not ask for assistance. A heavy sea was running at the time.

### His Petition Involuntary.

Burlington, Oct. 24.—A petition in involuntary bankruptcy was filed at the district court clerk's office in this city yesterday against B. H. Colburn, a storekeeper of Jay. The petitioners and their claims are as follows: McIntosh Company of Springfield, Mass., \$534.72; Howard W. Spurr Coffee Co., Boston, \$62.44; Stone & Forsythe, Boston, \$17.16.

An act of bankruptcy is alleged in that the petitioner on August 30 allowed the Vermont Mutual Fire Insurance Company to make over a \$400 check due him to A. A. Seaver with the intention of preferring him to other creditors.

The Vergennes high school has decided to publish a school paper, the name of which has not yet been decided upon and the following officers have been elected to conduct it: Editor-in-chief, W. H. Carter; associate editor, Miss Jennie Harris; business manager, Edward Mack. The paper will be published once in a term.

### \$100—REWARD—\$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to medical fraternity. Catarrh is a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution. Proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address F. J. CHENEY & CO., Toledo, O. Sold by all Druggists, 75c. Take Hall's Family Pills for constipation.

## TAMMANY IS ALARMED

Hearst Movement Reaches Vast Proportions.

### THE DAILY CONFERENCES

Of Tammany Leaders—Ivins Cry Against "Honest Graft" Also Disturbs the Wigwam—Hearst May Win.

New York, Oct. 24.—Yesterday began the second week of the most remarkable municipal campaign that New York city has witnessed since the Hewitt-George-Roosevelt contest of 1886. The reported betting odds on McCellan mean nothing except that a few Tammany sports are resorting to an old trick to inspire confidence in the success of their candidate. The Hearst movement has reached astonishing proportions. A week ago it was serious. Now it is producing a panic in Tammany Hall, and people are asking: "Where is it going to end?" Not a few veteran political observers say that it will end with the election of Hearst. This does not accord with the general belief, but every politician in New York now acknowledges that Hearst is decidedly in the race. Every Hearst meeting is packed with a crowd of real enthusiasts; "straw votes" taken all over Greater New York show a strong Hearst sentiment and it has been shown very clearly that this sentiment goes far beyond the workmen to whom Hearst's newspapers appeal chiefly. It appears that there is a large number of people in this city who intend to vote for Hearst, not because they agree with his radical views or believe in his sincerity, but because they are just yearning to smash both political machines and the candidacy of Hearst seems to give them the opportunity.

William M. Ivins has also loomed up as a formidable candidate since he went on the stump. In all his speeches Mr. Ivins, as well as ex-Mayor Low and other Republican speakers, has kept up the cry of "honest graft," and it is likely to become the campaign cry of all the anti-Tammany organizations. Mr. Ivins is repeating, in his references to Murphy's suddenly acquired wealth, the question that drove Richard Croker out of the country, that is: "Where did you get it?" In his last speech he answered the question by declaring that Murphy "got it" by "honest graft."

### PEOPLE WILL DECIDE.

Norway's New Government to Be Thoroughly Discussed.

Christiania, Oct. 24.—The Storting yesterday decided to postpone the debate on the motion presented by the members proposing that the future form of the government of Norway be submitted to a plebiscite. The postponement was unanimously carried on the understanding that the motion will be discussed simultaneously with one which the government will introduce later on the subject.

## THIN BLOOD

Thin blooded people are called anaemics. Anaemics present a haggard and fatigued appearance, have weak nerves and lack vitality. This disease is more frequent in girls and women than in boys and men. In fact, 90% of it is found in growing girls.

Any doctor will tell you that common sense is as important in medicine as in other vocations. Particularly is this true in treating Anaemia. Nature intended that we should all have a good supply of rich, red blood, and if this is lacking steps should be taken at once to remedy the defect.

The way to accomplish this desired result is to follow the plan adopted by Nature. The elements required are Nature's reconstructives. These are to be found in Magee's Emulsion. This marvelous remedy is made up of Cod Liver Oil, Malt and Hypophosphites—all builders and not destroyers.

Alcoholic medicines are worse than useless. They produce a temporary heat owing to the artificial stimulation, but a reaction follows which is particularly disastrous to anaemics.

Magee's Emulsion contains no alcohol. It imparts warmth to the system while it is enriching the blood. Persons with thin blood feel the cold weather more than others and are subject to Colds, Bronchial and Pulmonary affections. Magee's Emulsion primes the system to throw off these colds and makes blood, bone and muscle.

E. A. DROWN, DRUGGIST,

48 North Main Street, Barre, Vermont.

## The Flour Question!

We have just received another large shipment of strictly Old Wheat Flour. Most people know by this time the kinds we sell—Hinkle's Best Bread Flour and Hinkle's Commercial Patent, the best all around Flour sold.

One fourth barrel of Bread Flour for..... \$1.45  
Price, per barrel..... 5.75
